

INTRODUCTION

PARTS MANUFACTURER APPROVAL HOLDER LIST

General

Federal Aviation Regulation 14 CFR part 21 § 21.303 requires that any person producing replacement or modification parts for sale for installation on a type certificated product to obtain a Parts Manufacturer Approval (PMA). Approval of an application for PMA requires an engineering design approval by the Federal Aviation Administration (FAA) Aircraft Certification Office and a production system approval by the certificating FAA Manufacturer Inspection District Office (MIDO).

- Certificating MIDO is the MIDO which issues approval or has oversight responsibility for the production of the product/appliance on which the PMA applicant's part is eligible for installation.
- The PMA Holder list is compiled from information submitted by the MIDO's. The list contains approximately 1,100 PMA holders up to October 1995.
- The list is a Word 2.0 file and contains names and addresses of authorized PMA holders along with a 3-letter designator for the certificating MIDO. These 3-letter designator codes are included with the complete name, address, telephone and fax numbers for these MIDO's on pages 2 and 3 of this introduction.
- The list is in Table format, using 7 columns for information. The information provided is the PMA holder name, address (2 columns), city, state, zip code, and approving MIDO 3-letter code.

Microfiche PMA Listing

- The microfiche PMA listing dated September 1992 is available through the Government Printing Office.

For further information, please contact Adrienne Mauch, AFS-610, at (405) 954-6901 or facsimile at (405) 954-4104.
